

25 litres Gypsum Cardboard Container

➤ This container is for Gypsum waste only, including dental moulds. No other waste type is to be disposed of in this container.

Key features :

Safe Storage - Our cardboard container is designed to segregate and securely store Gypsum waste.

Sustainable – FSC approved and made from a significant percentage of recycled content.

Strength and Durability - Engineered with a strong, rigid body, ensuring enhanced durability and resistance to damage.

Temporary and Final Closure - Equipped with features to prevent spillages and overfilling.

Compliant - Meets the rigorous standards set by UN3291.

Product Specifications

Capacity	25 Litres (Max Gross 8kg)
Size	267mm x 267mm x 370mm
Weight	298g

Instructions for use:

Simply store used gypsum waste in this container until ready for collection by your phs representative. Dental moulds typically contain gypsum, a material that harbors biodegradable waste and has the potential to generate highly toxic hydrogen sulphide gas. To comply with regulations set forth by the Environmental Agency, it is mandatory to dispose of this waste at a specialist licensed landfill or through incineration.
